

# Sweet Dreams Project

**Are you concerned about  
your child's sleep?**

**Are you curious about your child's sleep  
habits and would like to know more?**

If you answered 'yes' to any of the above questions you may be interested in a study that is currently taking place which is looking at diagnosing sleep disorders in children aged 4-10 years using drawings.

Whether you are concerned about your child's sleep habits or if you are just interested in finding out more about your child then we would like to hear from you.

To take part in this study, which is being run by the University of Glasgow, or would just like to know more, then please give Nicola a call on **(0141) 2113926** or drop her an email on [sweetdreamsproject2008@googlemail.com](mailto:sweetdreamsproject2008@googlemail.com)

Thank you for your time and I look forward to hearing from you!
